BOOK SYNOPSIS

More and more, first- year writing courses foreground skills of critical analysis and argumentation. In response, *Arguing about Literature* hones students' analytical skills through instruction in close critical reading of texts, showing them how to turn their reading into well-supported and rhetorically effective argumentative writing. Two books in one, it combines a guide to reading literature and writing arguments with a compact thematic anthology of stories, poems, plays, essays, and arguments for analysis and research, from the authors of *Making Literature Matter*.
